This period can comprise a placement in either Block 1 (14 November to 9 December 2022) or Block 2 (30 January to 18 February 2023), not including the Christmas closure period (24 December 2022 to 1 January 2023, inclusive). Positions can run across both Block 1 and 2, with exact dates to be negotiated between the student and supervisor.
- Location:** Ophthalmology, Department of Surgery, University of Melbourne  
- Royal Victorian Eye & Ear Hospital, East Melbourne
- Scholarship value:** \$200 per week, pro-rata, tax-free; up to a maximum of \$1,600  
It is expected that up to 3 scholarships will be offered.

### **About Ophthalmology, Department of Surgery, University of Melbourne**

Ophthalmology is part of the Department of Surgery at the University of Melbourne. The Centre for Eye Research Australia (CERA) is co-located with the Department of Surgery. Ophthalmology research at CERA has a strong reputation for its clinical and translational focus. We rank 4<sup>th</sup> in the world for academic output in Ophthalmology, according to the 2017 Centre for World University Rankings by subject and conduct eye research into the causes, diagnosis, and treatment of eye diseases, vision loss and blindness.

We have developed our comprehensive research program by focusing on three integrating themes concentrating on translational research:

- Ageing eye diseases
- Vision regeneration
- Products and pathways to patients

### **Position Summary**

We are seeking outstanding students enrolled at the University of Melbourne with undergraduate and graduate degrees in biomedicine, science, medicine or other relevant courses to participate in our summer vacation scholarship program.

## How to Apply

Application Forms can be requested at [cera-education@unimelb.edu.au](mailto:cera-education@unimelb.edu.au). Please email your complete application and supporting documentation to [cera-education@unimelb.edu.au](mailto:cera-education@unimelb.edu.au) by **5.00 pm on Friday 7 October 2022**. Late or incomplete applications will not be considered.

Only students enrolled in University of Melbourne science, biomedicine, medicine, or other relevant degrees are eligible to apply. Please note students enrolled at other universities cannot be considered.

## Documents to be submitted:

1. Completed 2022-2023 Hector MacLean Summer Scholarship Application Form
2. Brief CV of no more than three pages including an outline of any previous research experience
3. A copy of your most recent academic transcript (this can be your unofficial transcript downloaded from the university website or a scanned copy of your official transcript).

## What happens once you have submitted your application?

1. Applications will be reviewed and students will be selected for interview.
2. Students selected for an interview will be advised by phone and/or email in the week beginning **Monday 17 October 2022**. For this reason, it is IMPORTANT that your contact information is up to date, and accurate and that you access your email.
3. It is anticipated that interviews will be held at the Centre for Eye Research Australia, based at the Royal Victorian Eye & Ear Hospital, East Melbourne from **25 October 2022**.
4. We match students to projects after feedback from prospective scholars and supervisors.
5. The timing of the project placement is then determined in consultation with the Hector McLean scholar and supervisor.

All successful students will be required to attend an Induction Program before commencing their project.

Successful applicants will be required to write a short report at the conclusion of their scholarship.
