

IMMUNISATION SNAPSHOT

THE ESSENTIALS ABOUT EACH REQUIREMENT

1. HEPATITIS B

You may need a full course of vaccinations that consists of three vaccine doses. To clear this check, you need to submit serology results confirming immunity to this infectious disease.

TOTAL TIME
TO COMPLETE:
up to
EIGHT
months

2. INFLUENZA

You need an annual influenza vaccination. The vaccine dose must be for the current calendar year. To clear this check, you need to submit an official vaccination record or a completed vaccination form provided by us.

TOTAL TIME
TO COMPLETE:
ONCE
every year

3. MMR

For measles, mumps & rubella, there are two common ways to clear these checks: (1) official vaccination record showing two vaccine doses against MMR; or (2) serology reports confirming immunity to each disease.

TOTAL TIME
TO COMPLETE:
up to
THREE
months

4. PERTUSSIS

To clear the pertussis check, you need to provide an official vaccination record showing you were vaccinated against pertussis **within the last ten years**.

TOTAL TIME
TO COMPLETE:
ONCE
every 10 years

5. VARICELLA

For varicella (aka "chickenpox"), there are two ways to clear this check: (1) official vaccination record showing two vaccine doses against varicella; or (2) serology reports confirming immunity to this disease.

TOTAL TIME
TO COMPLETE:
up to
THREE
months

6. TUBERCULOSIS

To clear this check, you need to submit a Tuberculosis Screening Form filled out by your doctor. You need to be tested for tuberculosis **no more than three months** before you commence your course with us.

TOTAL TIME
TO COMPLETE:
ONCE
in your course
