

Doctor of Optometry [OD] prerequisites

Country	Institution	Subject / Course Code	Subject / Course Name	OD Approved / Not approved
Australia	University of Melbourne	Introductory Neuroscience	516209	Approved
Australia	University of Melbourne	Neuroscience: Systems & Higher Functions	516305	Approved
Australia	University of Melbourne	Basic Principles of Pathology	531201	Approved
Australia	University of Melbourne	Fundamentals of Pharmacology	534201	Approved
Australia	University of Melbourne	Physiology: Control of Body Function	536211	Approved
Australia	University of Melbourne	Experimental Physiology	536222	Approved
Australia	University of Melbourne	Biological Psychology	512225 / PSYC20006	Approved
Australia	University of Melbourne	Principles of Human Structure	ANAT20006	Approved
Australia	University of Melbourne	Human Locomotor Systems	ANAT30007	Approved
Australia	University of Melbourne	Viscera and Visceral Systems	ANAT30008	Approved
Australia	University of Melbourne	Biochemistry and Molecular Biology	BCMB20002	Approved
Australia	University of Melbourne	Biochemical Regulation of Cell Function	BCMB20003	Approved
Australia	University of Melbourne	Techniques in Molecular Science	BCMB20005	Approved
Australia	University of Melbourne	Protein Structure and Function	BCMB30001	Approved
Australia	University of Melbourne	Functional Genomics and Bioinformatics	BCMB30002	Approved
Australia	University of Melbourne	Advanced Techniques in Molecular Science	BCMC30010	Approved
Australia	University of Melbourne	Molecular and Cellular Biomedicine	BIOM20001	Approved
Australia	University of Melbourne	Human Structure and Function	BIOM20002	Approved
Australia	University of Melbourne	Frontiers in Biomedicine	BIOM30001	Approved
Australia	University of Melbourne	Biomedicine: Molecule to Malady	BIOM30002	Approved
Australia	University of Melbourne	Introduction to Biomedical Research	BIOM40001	Approved
Australia	University of Melbourne	Biomechanical Physics and Computation	BMEN20001	Approved
Australia	University of Melbourne	Anatomy and Physiology for Bioengineering	BMEN20002	Approved
Australia	University of Melbourne	Biotechnology	BTCH20002	Approved
Australia	University of Melbourne	Cells, Tissues and Organs	CEDB20002	Approved
Australia	University of Melbourne	Fundamentals of Cell Biology	CEDB20003	Approved
Australia	University of Melbourne	Applied Animal Physiology	DASC20010	Approved
Australia	University of Melbourne	Topics in Animal Health	DASC20013	Approved
Australia	University of Melbourne	Principles of Genetics	GENE20001	Approved
Australia	University of Melbourne	Genes and Genomes	GENE20002	Approved
Australia	University of Melbourne	Experiments in Genetics	GENE20003	Approved
Australia	University of Melbourne	Principles of Microbiology & Immunology	MIIM20001	Approved
Australia	University of Melbourne	Microbes, Infections and Responses	MIIM20002	Approved
Australia	University of Melbourne	Experimental Microbiology	MIIM20003	Approved

Doctor of Optometry [OD] prerequisites

Country	Institution	Subject / Course Code	Subject / Course Name	OD Approved / Not approved
Australia	University of Melbourne	Medical and Applied Immunology	MIIM30003	Approved
Australia	University of Melbourne	Neurophysiology: Neurons and Circuits	NEUR30002	Approved
Australia	University of Melbourne	Principles of Neuroscience	NEUR30003	Approved
Australia	University of Melbourne	Developmental Neurobiology	NEUR30005	Approved
Australia	University of Melbourne	Visual Neuroscience	OPTO30007	Approved
Australia	University of Melbourne	Graduate Seminar in Vision Science	OPTO90017	Approved
Australia	University of Melbourne	The Eye and Vision: A Window to Disease	OPTO90018	Approved
Australia	University of Melbourne	Project in Vision Science	OPTO90019/OPTO90020/OPTO90021/OPTO90022	Approved
Australia	University of Melbourne	Exploring Human Disease	PATH20001	Approved
Australia	University of Melbourne	Mechanisms of Human Disease	PATH30001	Approved
Australia	University of Melbourne	Drugs Affecting the Nervous System	PHRM30002	Approved
Australia	University of Melbourne	Drugs: From Discovery to Market	PHRM30008	Approved
Australia	University of Melbourne	Drugs in Biomedical Experiments	PHRM30009	Approved
Australia	University of Melbourne	Sensorimotor Control Systems	PHTY20004	Approved
Australia	University of Melbourne	Integrative Human Physiology	PHYS20008	Approved
Australia	University of Melbourne	Research Based Physiology	PHYS20009	Approved
Australia	University of Melbourne	Advanced Human Physiology	PHYS30010	Approved
Australia	University of Melbourne	Physiology: Adapting to Challenges	PHYS30012	Approved
Australia	University of Melbourne	Principles of Physiology	PHYS90007	Approved
Australia	University of Melbourne	Animal Structure and Function	ZOOL20005	Approved
Australia	University of Melbourne	Comparative Animal Physiology	ZOOL20006	Approved
Australia	University of Melbourne	Oral Health Sciences 2	ORAL20003	Approved
Australia	University of Melbourne	Oral Health Practice 2	ORAL20005	Approved
Australia	University of Melbourne	Oral Health Practice 3	ORAL30002	Approved
Australia	University of Melbourne	The Psychopathology of Everyday Life	PSYC30014	Approved
Australia	University of Melbourne	Cognitive Psychology	PSYC20007	Approved
Australia	University of Melbourne	Developmental Psychology	PSYC20008	Approved
Australia	University of Melbourne	Perception, Illusions and Art	OPTO20004	Approved
