Faculty of Medicine, Dentistry and Health Sciences
University of Melbourne, Australia

Australia’s leading health and medical faculty
mdhs.unimelb.edu.au

EXCELLENCE
- Consistently ranked among top 10 universities globally
- The top university in Asia-Pacific for clinical, practical and health sciences
- The top ranked university in Australia
- Ranked 47th in the world for graduate employability

EDUCATION
- Total students: 4,000+
  - Undergraduate: 1,600+
  - Postgraduate (coursework): 4,000+
  - Higher degree research students: 2,500+

RESEARCH
- Annual research income of more than AUD $404 million
- 150+ research centers
- Over 20% of publications in top 5% of journals
- Over 30% of world’s most cited

FACULTY
- Academic staff: 2,700+ including 27 Nobel Laureates
- Honorary staff: 8,000+

SCHOOLS
- Melbourne Medical School
- School of Biomedical Sciences
- Melbourne School of Population and Global Health
- Melbourne Dental School
- Melbourne School of Psychological Sciences
- Melbourne School of Health Science

CENTRES
- Melbourne Poison Centre for Indigenous Health
- Melbourne Research Alliance to End Violence Against Women
- University of Melbourne Centre for Cancer Research
- Health and Biomedical Informatics Centre
- Centre for Youth Mental Health
- Centre for Stem Cell Systems
- Centre for Health Policy

RESEARCH INSTITUTES AND CENTRES
- 22. Walter and Eliza Hall Institute
- 21. St Vincent’s Institute
- 19. National Ageing Research Institute
- 17. Monash Institute for Pharmaceutical Science
- 15. Doherty Institute
- 14. Centre for Eye Research Australia
- 13. Biosciences Institute
- 12. Centre for Eye Research Australia
- 11. Centre for Eye Research Australia
- 10. The Royal Victorian Eye and Ear Hospital
- 9. The Royal Children’s Hospital
- 8. St Vincent’s Hospital
- 7. Northern Health
- 6. Mercy Health
- 5. Epworth Healthcare

OUR CONTRIBUTIONS
- Discovery of Bimakin therapy as an effective treatment for bipolar disorder (Professor Hugh Taylor AC)
- Development of boric acid as a new urological anti-microbial (Professor Peter Stables)
- Discovery of the human herpesvirus and development of a vaccine for infants and young children (Professor Donald Hossack)
- Development of the first gene implicated in the development of epilepsy (Professor Neil Rabbett)
- Eye health research and policy recommendations resulting in taking the gap in the rates of blindness in indigenous communities (Professor Hugh Taylor AC)
